AutoCAD is specially designed and optimized to create 2D / 3D. I would like to update to the new Autocad 2003. I found the download for Autocad for Windows for \$300. Autocad is not available for windows 7. If anyone knows of a free download of Autocad for Windows 7 then please reply. I have a license, but was just wondering if there is a free version of Autocad for Windows 7? Autocad 2003 for Windows Downloads I have a license for Autocad for Windows for \$300. I just want to know if there is any free Autocad for Windows? I have AutoCAD R14 but its for Windows XP. I don't know what Autocad is. If anyone knows how to download a free version of Autocad for Windows 7 then please reply. I have a license, but was just wondering if there is a free version of Autocad for Windows 7? I was getting a dialogue box that said "Wrong number of parameter" or something like that. So, I opened up Haxo, but I still cannot see the download. You can use Kaspersky Anti-virus and it will block it on your computer when you try to. Some sites will even have a message that says something like that. Try downloading it through firefox? The website you want to download from is [www.autocad.com](http://www.autocad.com). 1. Field of the Invention This invention relates to apparatus for storing and dispensing flammable liquid products. More specifically, this invention relates to a flammable liquid dispensing apparatus of the type wherein the product is in liquid form and the product container contains an ignition source. 2. Description of the Prior Art A number of flammable liquid product dispensers are known in the art. These prior art dispensers are typically structured to permit the product to be dispensed by means of a trigger-actuated pump, or the like. In the normal situation, the liquid product is loaded into the dispenser through a pouring spout connected to the container, and product is

---

withdrawn through the spout as required by the user. However, other dispensers provide for dispensing the product by means of a chemical reaction. Specifically, some such dispensers incorporate an aqueous solution of acid and bromine, in which the user of the product coats the fingers of his hand and then squeezes a desired amount of the solution 82157476af
